CLUB ACTIVITY

13.02.2024

Club activities assist students to cultivate a sense of unity and working with others in reaching the same goals.

Maths Club: Exploring the World of Numbers. Our little Champs learned adding and subtracting money, students made bar graph model and also they played maths games. It is a great way to engage students and showcase their interest and achievements in mathematics.

Eco Club :Eco Clubs play a vital role in educating and empowering students to become responsible and environmentally conscious citizens, making a difference both locally and globally. Our students made a bird's nest from a coconut shell and they prepared pickles, students prepared eco friendly colours with natural ingredients.

Astronomical Club offers a rich and rewarding experience for students, promoting STEM education, critical thinking, collaboration, and personal development while nurturing a lifelong appreciation for the wonders of the cosmos. Students made their own space center, and also they made a comparison of planets.

Language Club enriches students' lives by enhancing their language skills, cultural awareness, interpersonal skills, cognitive abilities, and global outlook, preparing them to thrive in an interconnected and multilingual world.

Heritage Club provides a rich and meaningful educational experience that promotes cultural preservation, awareness, identity formation, community engagement, and personal growth among students. Our students from grade 3 made an island with coconut shells.

Art Club offers a supportive and enriching environment where students can cultivate their artistic talents, develop important life skills, and gain a deeper appreciation for the role of art in society and personal students learned how to make paper flower baskets, spray painting and also they learned how to make wall hanging with popsicle sticks.

Science Club : Welcome to the captivating world of the Science Club! Bursting with curiosity and innovation, our club serves as a hub for budding scientists, aspiring engineers and future inventors. Our students made thread from cotton, working model of respiratory system and also they made plant cell.

KG COMPETITION

TONGUE TWISTERS

13.02.2024

Tongue twisters can be a source of amusement and entertainment, especially when shared with friends or used as icebreakers in social gatherings. This Brain Exercise was conducted as a competition on 13/02/2024. They provided a fun challenge for our kids to test their linguistic abilities and cognitive skills. Trying to say them quickly and accurately can be a stimulating mental exercise.
